Disposal warnings

- Drain excess water from kitchen waste.
- Soak up used cooking oil in waste paper or cloth.
- Notes, memos and (paper) sweet boxes that are bigger than a visit card can be recycled. Put them between the pages of a magazine or leaflet before disposal.
- Remove earth from grass before disposal.
- Remove waste from paper diapers.
- For clothing disposal, place up to 2 bags at the collection point.
- Cut cord-shaped garbage down to 1m.

Only pruned branches, wood products, bamboo/bamboo products and tough vegetable stems can be tied with string instead of disposed in bags. Each item must be no more than 50cm long and 10cm wide. In total, wood and garden waste limited to 2 bags/bundles per disposal.

- Dispose of agricultural waste (stalks, leaves, vines, seeds) in the rice fields.
- As for clothing, there is a collection site at each paper recycling station (please refer to the blue box on the lower right side of this page).
- We ask for your cooperation in recycling cooking oil.

- *The second Sunday of every month at Minami-shisho (Minowa-machi ha 84-2)
- *The third Sunday of every month at Recycling Plaza (Mukaimotoori-machi he 88)
- *Furugami recycle station (Ashida machi 2-7-1. From Mon. to Sat., from 8:30 to 16:30)
- **Check other recycling sites in your town

Place **Plastic containers and packaging** separately from **General garbage** at disposal area.

- Suitable items display the ♻️ mark.
- Please remove the cap from all containers.
- Clean items only.
- Make sure all items are completely dry before disposal.
- Dirty items (ketchup or toothpaste tubes etc.), styrofoam and plastic items without the ♻️ mark are to be disposed as burnable garbage.
- White trays to go to collection shops.

Use transparent or semi-transparent bags (45L or less in size)

<p style="text-align: center; font-weight: bold; font-size: 1.2em;">Weekly Tue</p> <p>• Collection days are shown on separate calendar</p> <p>They are separated by color based on the type of garbage</p> <p>• Disposal area may vary according to the type of garbage.</p>	WASTE PAPER	News papers	Corrugated cardboard	Milk Cartons	Magazines, flyers, books, envelopes, wrapping paper, cardboard boxes	<p style="border: 1px solid red; display: inline-block; padding: 2px;">Tie each type of paper with string. Separate paper by type at disposal area.</p> <ul style="list-style-type: none"> ● Remove flyers from newspapers. ● Milk cartons should be washed, dried, cut opened, then tied with a string. ● Magazines, flyers and cardboard boxes should be tied up with a string. ● Papers larger than Business Card size shall be recycled with paper waste. <p style="text-align: right;">● Newspapers should be tied up and not put in bags.</p>
	CANS	Drink cans, food cans, oil cans, spray cans (stab a hole in it), pans, aluminium containers (for udon noodles).				<ul style="list-style-type: none"> ● Maximum size: 2 liters (ex: powdered milk can). Cans that are above this size must be disposed of as Metals. ● Empty all packaging and rinse all cans with water. ● Exhaust all spray cans or tabletop cassette-style gas canisters in a well-ventilated place and puncture a hole in the side.
	METALS	Pans, kettles, frying pans, hot plates, oven toaster gas rice cookers, fan heaters, oil heaters, gas cookers, antennas, ski poles, golf clubs, sickles, knives, hoes.				<ul style="list-style-type: none"> ● Remove batteries and kerosene from appliances before disposal. ● Glass lids must be disposed of as Landfill garbage. ● Heat treated metal and cast metal items are included in this category. ● Knives and blades must be wrapped with paper before disposal. ● Objects that are mostly made of metal, and whose size are under 150 cm in diameter or length may be disposed of as Metals even if they are in the list of 77 designated Large-size garbage.
	Crush Garbage	Electrical appliances Items made of mixed materials	Watches, vacuum cleaners, electrical fans, BS antennas, printers, word processors, portable sewing machines, lamps, electric rice cookers, umbrellas, belts, baby carriages/strollers, bags with metal parts, metal caps.			<p style="border: 1px solid red; display: inline-block; padding: 2px;">Place Crush Garbage and Metals separately from general garbage at disposal area.</p> <ul style="list-style-type: none"> ● "Items made of mixed materials" are those which contain burnable and non-burnable material. Ex: a belt (leather and metal), an umbrella (metal and plastic or cloth) etc. ● Remove fluorescent bulb from lamps. ● Remove batteries from appliances before disposal. ● If the internal part of the electric rice cooker is made of metal, the disposal of each part is on different days (the internal part goes with Metals and the external part goes as Crush garbage). ● Small rechargeable home appliances (with batteries that cannot be removed) fall under hazardous garbage.
	EMPTY BOTTLES	Transparent /Clear	Brown	Black	Other colors	<p style="border: 1px solid red; display: inline-block; padding: 2px;">Food /drink and medicine bottles must be separated by color.</p> <ul style="list-style-type: none"> ● Rinse lightly with water and remove cap. ● All colored wine bottles are considered "Other colors". ● Cosmetics bottles must be disposed of as "Landfill Garbage". ● Take beer bottles (large, medium or small) and 1.8 liter bottles to collection shop.
	HAZARDOUS GARBAGE					<p style="border: 1px solid red; display: inline-block; padding: 2px;">At the disposal area, place hazardous garbage separated according to the categories on the left.</p> <ul style="list-style-type: none"> ● Fluorescent bulbs can break at the disposal area so please dispose of them in the original case. ● Button cell batteries and Nickel-Cadmium (NiCAD) batteries to be taken to recycle boxes in stores. When placing button cell batteries in the collection area, wrap them with tape or other means before disposal.
	PET BOTTLES	All PET bottles used for drinks, alcohol or soy sauce.				<p style="border: 1px solid red; display: inline-block; padding: 2px;">(Bags will get torn apart inside the machinery, so please do not put the above items in separate smaller bags).</p>
	LANDFILL GARBAGE	Glass, <u>nails, needles, razors, make up containers, cups, teacups, vases, mirrors.</u>				<ul style="list-style-type: none"> ● Ensure nails or needles are not scattered. ● Wrap sheet glass in paper and insert into a strong bag marked "KIKEN" (dangerous).
